Daily Rate:	£190.00	£160.00	£350.00	A daily rate is only applicable when there is a continuous day's work, or more, involved in any particular job. Part days are worked at the Equivalent Hourly Rate and time is charged for each hour or part of an hour on site , as shown.
Equivalent Hourly Rate:	£25.33	£21.33	£46.67	

The above rates are correct at the date shown. Rates will vary from time to time but increases are never applied without negotiation and then only if any particular job continues over an inordinate length of time. Generally, rates agreed at the beginning of a job will apply until the work is finished.

Work which is first estimated is subject to the agreed price contained in the estimate. There may be variations from that price in circumstances as shown in my Standard Terms and Conditions.

A job is billed by way of interim invoices as work progresses. However, the full cost of work and materials is not required until the work is finished. The customer is always left with money in hand.
